

ENERGY1 KW RELAY

No more power outages!!

Energy1 KW Relay will reduce electric demand when necessary, and prevent power failures by shedding one or two non-priority loads

- Energy1 KW 7 + 1 relay (30Amp, 240Vac)
- Energy1 KW14 + 1 relay (30Amp, 240Vac)
- Warns when absorbed KW exceed your target load value and cuts off a non-priority load
- Energy1 KW 7 + 2 relays (30Amp, 240Vac)
- Energy1 KW 14 + 2 relays (30Amp, 240Vac)
- Warns when absorbed KW exceed your target value and cuts off two non-priority loads

Disconnected loads remain off for 2-4 minutes after normal conditions have been restored.

- 220/240V 50/60Hz power supply
- Displays absorbed KW
- User-defined threshold value
